

Parallel Passive Portfolio Range

Passive Cautious Growth

The investment objective of the Parallel Passive Cautious Growth Portfolio is to achieve capital growth over the medium term (5 years plus), without compromising investors' tolerance for risk, by maintaining a preference towards lower risk assets such as cash and fixed income, and less emphasis on higher risk assets such as equities. The Portfolio consists of a range of low-cost passive instruments (including tracker funds and exchange traded funds) to provide exposure to a diversified blend of assets which may include equities, bonds, commercial property, commodities and cash.

Benchmark: As a comparative benchmark the Portfolio uses Consumer Price Index (CPI) + 3% over a rolling three-year period.
